

# ELDERS LEARNING ENGLISH FOR EUROPE

2021-1-PL01-KA220-ADU-000033465

THE PROJECT IS CO-FUNDED BY ERASMUS+ PROGRAMME OF THE EUROPEAN UNION

## ABOUT THE PROJECT

The increase in people's life expectancy is connected to one of the most significant social shifts that has taken place in recent times.

The Council of the European Union is committed to ensuring that older people continue to be active as citizens, workers, consumers, caregivers, and volunteers while also supporting their independence and participation in social, economic, and civic life.

One of the suggested measures is for the elderly to participate in training and lifelong learning activities. This age group increasingly travels to other countries and forms relationships with people who speak other languages. The study of languages, particularly English, is crucial in this regard. The elderly will be able to acquire the necessary English through our project.

Co-funded by  
the European Union

## PROJECT OBJECTIVES

- To increase the number of high-quality learning opportunities that are tailored to older people's needs to enhance their digital and multilingual skills as well as their English language learning.
- To improve the abilities of trainers and other staff members who work with older people, particularly to encourage them to learn foreign languages and provide effective instruction.

## TARGET GROUP

- Teachers and staff who support the teaching of foreign languages to the elderly.
- Elderly people with an interest in learning languages and having a low level of knowledge of English.

## WORKING ON THE TEACHING MATERIALS

During the transnational meeting in Porto, the most important part of the project has been developed. The partners have designed a very intuitive e-learning platform with interactive pdfs for the elders to enroll and follow the course and it will be launched soon.

*"This partnership is formed by organizations from Poland, Slovenia, Spain, Portugal and Turkey."*

## SECOND TRANSNATIONAL MEETING IN PORTO

The second transnational meeting took place in Porto (Portugal) the 16<sup>th</sup> and 17<sup>th</sup> of September 2022. During these two reunion days the partners have presented the project's progress activities and the follow-up on the project results. The most important part of these reunions has been the e-learning platform: the participants have worked in detail on the development of this intellectual product and its content. The management, financial issues, and the dissemination plan have also been a part of the work during this transnational meeting. The partners also had time to enjoy the city and discover Porto's cultural offer.
