

PROJECT OBJECTIVES

The most important needs our Institution is facing are:

- to improve knowledge and skills of the staff
- to acquire new teaching methods and tools
- to enhance the teaching and training content and empower the adult learners
- to increase the quality of the trainings and provide adults better learning services
- to professionalize and internationalize the institution and staff.

Providing learners with opportunities :

- improving learning performance
- increasing transversal skills/competences
- increasing foreign language skills
- strengthening intercultural awareness
- contribution to more active participation in society
- raising awareness of the European project and EU values
- increasing the motivation to take part in future (formal, non-formal) education or training after the mobility period abroad.

It is expected to improve all the key areas and meet the needs of the staff and learners through the activities in the following.

1. ***Training Course:*** key competences for adult education professionals

- Topic 1: Increasing Intercultural Competences of Trainers
- Topic 2: Effective Techniques and Good Practices in Non-formal and Informal Education of Adults

2. ***Group Mobility of Adult Learners:*** Innovative Approaches to Environmental Education
