

# Entrepreneurial workshops Across Europe

## Managing the virtual budget

### 14th June, Virgil Madgearu High School, Romania

Young people from Virgil Madgearu High School were involved in an interactive activity of managing the virtual budget.

The students were presented with the rule of the budget "50/30/20". Basically, they had to split their income and allocate it to spend: 50% on needs, 30% on desires and 20% on savings.

Participants understand that it can be difficult to solve desires and needs, because these categories are very subjective, however, saving should always be a priority.

## Kick off meeting

Partners met at Istanbul set the main steps to contribute to promotion of business start-ups, youth entrepreneurship, technological innovation and new forms of business activity.

They are developing a Toolkit for youth workers that allows them to support and help young people who want to start a business idea .

### 16th August, Turkey

Basically, the toolkit provides youth workers with necessary knowledge and practical tools to be used in working with young people, with a particular focus on social entrepreneurship.

## How to Use Brainwriting for Quick Idea Generation

### 27th August, Italy

Participants experienced Brainwriting as a new method for generating creative ideas and solutions to a problem. Brainwriting offers everyone with equal opportunities to participate in the discussion and allows all members of the group to think and get involved without any block.

This workshop allowed even the most shy and introverted young people to participate and collaborate.

A sub-group of 3 people was chosen to evaluate and decide to pursue a business idea.

## Interim meeting

4th November, Italy

Delegates of all project partners participated in the second transnational meeting of the project Entrepreneurial Mindset, which took place in Italy.

The meeting was hosted by Co-labory and gathered partners from Romania, TEAM4Excellence, Poland, INBIE, and from Turkey, Governorship of Istanbul.

During the meeting they agreed on the macrostructure of the toolkit on social entrepreneurship; testing and evaluation of the course, MOOC platform as well as dissemination and visibility.

Among the topics: hackathon, psychological analysis activities, development of accounting courses, project competitions, hosting seminars with the invitation of influencers with experience in entrepreneurship.

We proudly took part in the jury for selecting the winning team.

## Pilot the Business Model Canvas module for social entrepreneurship

24th November, Italy

## Competition of Project Proposals

22nd November, Romania

Participants developed project proposals that promote entrepreneurial mindset. After a series of 4 workshops participants has the opportunity to present their work in front of the jury.

November -March 2022, Romania

EnMind team introduced the project, its objectives and its mission. They tackled the issue of social entrepreneurship and entrepreneurial skills, recognized by the EU as transversal skills. A presentation of the concept of social enterprise and its characteristics was delivered.

Participants understood the logic of the Business Model Canvas and how the 9 blocks can help participants to validate their business ideas.
